The lot is policed and supervised by the village. Added to the parking area behind the stores on the west side of Main St., there is now convenient parking near all Main St. stores.

Buddy Poppy Sale In May

The appointment of Chester White as Chairman of the V.F.W.'s annual Buddy Poppy sale was announced today by Commander Kenneth Liddle of Veterans of Foreign Wars Post No. 4551. Announcement was also made of the appointment of Laura Swanson as Auxiliary Chair-

Buddy Poppies will be sold on the streets of Antioch on May 20.

Local V.F.W. and Auxiliary officers expressed a desire to make this year's sale of Buddy Poppies the biggest in modern times. They point out that today, with boys fighting in Vietnam, we are reminded of our obligation to help those who gave, and are today giving, so much on our Nation's battlefields.

They point out that the continued high cost of living is placing an increased burden on our disabled and needy veterans and on those who are attempting to serve them. Those who buy and wear Buddy Poppies will make a substantial contribution to this worthy cause.

"It is hoped," said these V.F.W. leaders, "that our citizens will contribute generously, and help us remember hundreds of orphans in our National Home at Eaton Rapids, Michigan."

Scholarship Awards

Debbie Strom and Lark Hawkins, Antioch High School seniors, were selected by the Suraya Brook Scholarship committee to receive scholarship awards from the Suraya Brook Memorial Scholarship Fund.

Project Viet Nam Gets Official Acclaim

Postmaster Joe Wolf and the personnel at the Antioch Post Office received official recognition last week for their excellent work in organizing and promoting Project Viet Nam.

Donald L. Swanson, Regional Director of the U. S. Post Office, visited the Antioch Post Office last Friday morning to present to Postmaster Joe Wolf and his employees an award for the project.

Mayor Raymond Toft and all the postal employees in the office gathered for the short ceremony as Mr. Swanson read a letter citing the excellence of the project, and presented the framed award to Wolf. As he handed the certificate to Mr. Wolf, Mr. Swanson remarked, "And, of course, no one would come in the Antioch Post office without a contribution for Project Viet Nam," and emptied the contents of a paper sack he held—several packages of Kool Aid—on a nearby desk.

Student Council Car Wash

Members of the Student Council of Antioch High School will conduct a car wash at Al's Cigo Service on North Ave., this Saturday, May 13.

Cars will be washed from 9 a.m. to 3 p.m.

The Vatican has its own radio transmitters.

The letter from the Regional Director follows: A picture of the award is elsewhere in the paper. Acting Postmaster Joseph Wolf, United States Post Office, Antioch, Illinois 60002

Dear Mr. Wolf:

The certificate in recognition of notable achievement has been prepared to convey appreciation to you and your employees for having organized and developed the Viet Nam project. Although not a part of your assigned duties, the promotional campaign conducted by personnel in the Antioch Post Office was closely associated with official employment and resulted in much good will for the Postal Service.

It is obvious that your mission to obtain community support for purchasing soft drink flavors produced numerous benefits. Letters from the servicemen in Viet Nam show that your thoughtfulness was much appreciated. Not only has morale been improved through more palatable drinking water, but perhaps even more important, they know that postal employees and other citizens in Antioch are concerned about their welfare. Your actions have apparently helped develop greater consciousness among your friends and neighbors of the important contributions being made to us by our men in Viet Nam. I know that Postmaster General O'Brien would join me in thanking all of you for what you have done. We are proud of your success.

Sincerely yours,
Donald L. Swanson
Regional Director

Project Viet Nam, which has won the wholehearted support and cooperation of Antioch residents, continued in full swing after the highlight of the award and official visit of Mr. Swanson.

Mothers of several servicemen now in Viet Nam had asked permission of Mr. Wolf to help in the work of preparing packages for shipment overseas. The Women of the Moose have recently joined in this work, and Monday night, Joe Wolf, several postal employees, Women of the Moose and mothers of the servicemen met at the Moose Hall to prepare the next shipment.

Fudge, made by the Women of the Moose, was added to the list of items for the shipment. Names of 48 Antioch area servicemen are now

on the Post Office list. The group packed 248 packages and mailed 100 the next day. The remainder will be spaced over the next week or ten days, so that the boys will receive packages at intervals. Two hospitals are also on the mailing list.

Antioch High School officials have added copies of the Tom Tom, the high school newspaper, to the mailings, and last week school officials received a letter of thanks from Pfc. William P. Ream for the school news.

Dear Students and Teachers:

Yesterday I received an envelope, at mail call, from Antioch Community High School. When I opened it, I got rather a funny feeling inside. It's hard to explain. Just getting a newspaper from a place that one really liked made it so, I guess. But I think it's more than that. Your High School years are something that you'll never forget. I know I won't. When I was there, it didn't mean that much to me, but now that I'm out I look back and wish I could still be there.

Right now I'm in Korea, and it's really a wonderful tour. But it is still the army though. I've been here seven months and have another ten months left yet. It's mail like yours that makes time go faster because you know that someone at home still thinks you exist. All the guys here thought it was a real great idea on the part of the school.

I thank you very much. And give my best of luck to all the graduates this year.

Sincerely,
Pfc. William P. Ream

The names of four more Antioch boys have been added to the list of servicemen in Viet Nam: Mike Verkest, RDSN; W/O Richard D. Fowles; Edward Rosquist, QM3, and Al/c Gary Kappel.

Again this week, many people have contributed to the project: Donald L. Swanson, Regional Director U. S. Post Office; Helen Wellman, Florence Baer, Jim Mapletorpe, Laura Swanson, Andrea Goode, Robert Hart, Pickard, Inc., State Bank, Women of the Moose, Employees of One Hour Martinizing, Johnny Kulack's Tavern on Rt. 45, Florence Markwart, Mrs. Jens Jensen, Mrs. George Hahn, Lucile Cilik, Mrs. R. Hart, Don Cramer, Mr. and Mrs. Al Schreiber and Eugene and Agnes Slomson.

Extra downtown parking space is provided by the new free parking lot just south of Barnstable's Dept. Store on Main St.

The Right To Know

A bill has been introduced in the Illinois General Assembly to change the requirements of annual financial statement publications of municipal governments. A similar bill would make similar changes in the publication of annual financial statements of county officials.

The change would make it unnecessary for such statements to list who the money was paid to and what it was spent for.

One of the arguments advanced for passage of the bill is that no one reads these financial statements anyway. A sweeping assertion, and we certainly hope it's untrue.

If the average citizen doesn't bother to read the statement, there are certainly many who do. Various contractors must quite frequently find these statements of interest. And certainly newspaper personnel will peruse them. Government officials of other like agencies must find them of interest, for comparison.

Publication of financial statements has long been a very effective watchdog, discouraging not only graft but favoritism in awarding contracts and inefficiency. It's a very small expenditure, so even economy in government can not be an effective plea for discontinuing or changing the present practice.

There are many areas of government where present laws are admittedly outmoded and ineffective. Our busy legislators might much better spend their time considering effective changes in these laws than waste valuable time devising laws to further limit the public's right to know exactly what their government is doing.

Letters to the Editor

To the Editor:

We people of Lake County have 37 1/2% representation down at Springfield it appears; the County Board of Supervisors and the Daily Press rate 62 1/2%!

We people of Lake County voted tax ceilings on three areas of County government at the same time we voted to send Robert Coulson, Karl Berning, John Conolly, John Matijevich, John Henry Kleine, Bill Murphy, Daniel Pierce and George Lindberg to Springfield as our Legislators.

When the Bill came up for passage to abolish the tax ceilings we had set, Mr. Berning, Mr. Murphy and Mr. Matijevich remembered we had elected them to represent us, and voted against raising the ceilings. The others either did not vote, voted against us, or changed their votes to make it look good after the Bill was assured of passage.

This should teach us a lesson for next election, simply this: When Coulson, Conolly, Pierce, Kleine, and Lindberg ask our support then, we'll have the opportunity to vote against THEM! Let's remember, as our tax bills rise, the five who are responsible: Coulson, Conolly, Kleine, Pierce and Lindberg. Let's keep reminding them and our neighbors of their voting record. Let's make sure they are never given the chance to misrepresent us again!

Dear Sir:

Senator Fulbright continues his bitter criticism of President Johnson's policies and accuses the President of bringing General Westmoreland home to flatten dissent. He says—"This criticism of dissent will lead to charges of disloyalty, muddled-headedness and then to treason." The Senator's opposition to a hard line against communism is not a come-lately thing. It pre-dates President Johnson and his Viet Nam policies.

Further, the Senator is not concerned with the stifling of dissent, when those stifled are the ordinary American citizens. In 1961, it was disclosed that he had prepared a semi-secret memorandum for selected distribution. His contempt for the average citizen can be judged from this quote from his memorandum:

"Fundamentally, it is believed that the American people have little, if any need to be alerted to the menace of the cold war. The principal problem of leadership will be, if it is not already, to restrain the desire of the people to hit the communists with everything we've got, particularly if there are more Cubans and Laos.... Pride in victory and frustration in restraint, during the Korean war, led to MacArthur's revolt and to McCarthyism."

Yours truly,

Dear Sir:

The right of Americans to peaceful assembly is guaranteed by the First Amendment of the U. S. Constitution. However, are not the anti-Vietnam War demonstrators exceeding their rights when they burn American flags? Surely disagreement with our government's foreign policy could not be expressed by attacking the historical symbols of the United States itself. These same Peacenik demonstrators in their last major march carried North Vietnamese flags. Why is it that we find those anti-Vietnam War

Courthouse Notebook

Despite sizeable expenditures for a special road and highway study and overwhelming and visible evidence that something drastic must be done about highways in Illinois it appears unlikely at this point that the Illinois General Assembly will take meaningful steps to remedy the situation.

A state-wide survey of city streets, township roads, county and state highways corroborated earlier assessments that Illinois roads were in bad shape.

Follow-up of the survey was a recommendation for an increase in the state gas tax, higher license fees, and a multi-billion dollar bond issue to get the ball rolling on needed construction.

Some bills calling for the increase in motor fuel tax have been introduced, but there has been considerable stalling on passage.

Now Melvin Amstutz, veteran superintendent of Lake County highways, is urging passage of legislation which would permit counties to float a highway construction bond issue without a referendum with the issue to be amortized through the increased revenue resulting from the hoped-for tax boost.

Lake County floated a highway bond issue in the 1930's to get the county out of the mud, but this has long since been paid off so county indebtedness is at a low point, even with the bond issue for the new county administration building and courthouse hanging over the taxpayers.

Amstutz, however, is realistic enough to know that securing approval for a county general obligation bond issue would be extremely difficult unless he could present a highway construction schedule based on political consideration rather than need.

The Worthy Grand Matron then gave an interesting talk and spoke of the chapters of Oak Lawn and Lake Zurich which were assisting the tornado victims by offering their respective temples as shelters.

The meeting was then closed and a reception was held in the dining room.

GOP Women Oppose H.B. 1462

The Lake County Republican Women's Legislative Study Club, meeting Monday, May 1, voted unanimously to urge a No vote on H.B. 1462, which extends the power of the Building Authority; and House Bills 1467 through 1517 (Identical Senate Bills 1253 through 1299) which would eliminate local Housing Authorities and place all powers under a State Housing Authority.

The Women's Club said, "We, a group of Republican women, are extremely distressed that our Republican controlled Assembly is a party to the further erosion of local control, which passage of these Bills would speed. We find this type of legislation inconsistent with the Republican principles for which party members have devoted their time, money and energy."

New Phone Books Out This Week

Illinois Bell Telephone's new directory for the Antioch area is being delivered to homes and businesses this week.

Distribution is normally completed within a week, according to Jerry Babb, local Bell manager.

He said the 1967 telephone book will again feature the new "3-in-1" format, which incorporates "three directories in one cover."

1. Local white pages
2. Local yellow pages
3. Regional white pages

The local white and yellow pages contain listings for Antioch, Fox Lake, Gages Lake, Grayslake, Hainesville, Ingleside, Lake Villa, Lindenhurst, Millburn, North Antioch, Old Mill Creek, Pistakee Highlands, Rosecrans, Round Lake, Round Lake Beach, Round Lake Heights, Round Lake Park, Russell, Spring Grove, Third Lake, Venetian Village and Wildwood.

The regional white pages at the back of the book contain listings for these same communities, plus 22 others in the surrounding "far north region" suburbs. A map on the back cover illustrates the area included.

"This format is part of the suburban directory improvement program we recently initiated at a cost of more than a million dollars," Babb said.

"The program also included the introduction of larger type. Our overall goals have been—and will continue to be—to make our directories more convenient to use and easier to read... with our customers providing the yardstick."

On the front cover of the new directory, full-color photography is utilized to portray a statue of a meditative Lincoln over a quiet Illinois landscape. The statue is Augustus Saint-Gaudens' famed bronze sculpture of Lincoln, completed in 1887 and now located in Chicago's Lincoln Park.

Babb noted that an innovation just inside this year's book is a detachable "ready reference" card for listing the telephone numbers of business firms and services. To aid in listing and finding these numbers quickly, space is provided under business categories corresponding to those used in the yellow pages.

"The introductory pages of the directory contain about 250 facts—helpful information covering just about every calling situation to guide telephone users in dialing local, long distance, service and emergency calls," he said, adding:

"The preliminary yellow

machines, preventing work delays and saving the time of employees. Captain Leedy presented a certificate of commendation and a \$55.00 award to Banedt, based on estimated savings of \$1,025 during the first year his suggestion was in use.

Mrs. Finley was awarded a special pay increase for high quality work as an inventory management specialist in the Stock Control Division. According to Captain Leedy, the U. S. Navy has been in the midst of one of the biggest modernization, overhaul, ship construction and ship rebuilding periods in recent history. "The urgent need for modernization, combined with the unusually high demand for electronic material created by the war in Viet Nam, placed an unprecedented demand for cable upon the Electronics Supply Office," the Captain said.

In order to make the best possible use of available stocks, shipboard cable requisitions were centrally controlled, manually reviewed and released. "Mrs. Finley was assigned responsibility for filling cable requisitions for ships under construction, overhaul and in port for resupply at the San Francisco Bay Naval Shipyard, Vallejo, California, and the Naval Shipyard, Norfolk, Va. ESO has received many compliments on the high degree of effectiveness with which she met her obligations and filled critical fleet requirements," Captain Leedy said.

There were 22 co-workers that boarded the chartered bus that took them to Lockport to attend the Academy of Friendship session, held there for the Women of the Moose. Smith Heads Special Program For Gifted

Thomas E. Smith, Psychologist with the Special Education District of Lake County, and resident of Antioch, has been named Director of a Summer Institute for teachers, sponsored by the Illinois Program for the Gifted of the Office of the Superintendent of Public Instruction.

The institute will be hosted at the Round Lake Community Consolidated Schools, and will be of six weeks duration, from June 19 to July 28. Participating teachers will be stipended by federal funds under Title III of the Elementary and Secondary Education Act. Teachers from throughout the Northeastern area of Illinois have already made application to the summer institute.

Smith says, "The basic purpose of the institute will be to help teachers develop skills for working with talented and creative under-achievers. There are a great many young Americans who never become really motivated for schooling, and never develop to their full potential accordingly. The end result is a considerable loss of national talent. Hopefully, the institute will guide participating teachers toward greater understanding of themselves and others, and therefore toward development of creative programming for the gifted under-achiever."

There will be a five week summer school program at the Central School in Round Lake, held in conjunction with the institute. Classes will meet mornings from June 21 to July 25, with the specific content and activities of the classes depending on the interests, needs, and interaction of teachers and students. Students will "go to school" mornings, and the teachers will "go to school" in the afternoon. Smith emphasizes, however, that neither the student program nor the teacher program will be anything like the regular school set-up. Students will be able to develop their own projects, ideas, and interests. Classes will be of about 15 to 20 students each, with 3-4 teachers in constant interaction with the group. Teachers will be involved in team teaching, self criticism, didactic lecture - discussions, and intensive small group interaction.

Prior to joining the Special Education District, Smith was a professor of clinical psychology at Central Michigan University. He had his undergraduate and graduate training at the University of Wisconsin, and worked with the Veteran's Hospitals during his graduate program in clinical psychology. He has been coordinator of two different government research projects, one involving studies of the memory process in mental retardees, and the other concerned with evaluation of a comprehensive day-care center in the rehabilitation of chronic diseased and disabled aged patients. He has over 15 publications and papers in professional psychology and education journals.

As part of his responsibility as director of the summer institute, Smith will be in charge of evaluating the entire program. He says, "It will be difficult to determine how successful the program is, for the real measure of achievement will be the enriched lives of students through the years that come in contact with the teachers who attend the institute. If the program is successful, then the participating teachers will return to their school systems with ideas, skills and energies, for developing programs for the talented and creative underachiever."

where she was awarded her chapter pin, for her attendance at the meetings. The new slate of officers was announced for the ensuing year and the election for the new officers will take place at the regular business meeting on Thursday, May 18, starting at 7:30 p.m. until completed.

The Loyal Order of Moose will have a ritual practice at the Antioch Moose Home, Mon., May 15. All members that take an active part in the ritual are asked to be present.

The Hunting Club of the Antioch Moose will have their second annual Hassenpfeffer dinner which will be held at the Moose Home Saturday evening, May 20.

The membership committee will be sponsors of the card party to be held at the Antioch Moose Home Tuesday evening May 16.

The Legionnaires of the Antioch Moose will have a dinner outing on Sunday, May 21. An election of new officers will also take place at this time.

Potter Wins Feature At Speed Center

Claude Potter of Genoa City, won the 30-lap feature race for modified stock cars as the Lake Geneva Speed Center opened its 1967 season of racing in a flurry of record breaking qualifying runs.

Lauren Lawrence of Kenosha blasted the old record held by Don Schuppel of Milwaukee, when he turned a lap at 17.20 seconds. Then in quick order, the defending modified Champion, Duane Harris of Lake Villa, turned a lap at 17.14 seconds and Ron Bergsma of Richmond got one in also at 17.20. Then it was Rodger Otto's turn and the winner of the 1966 Speed Center's Contest of the Most Popular Driver, wheeled off a fast one at 17.00 seconds flat, averaging better than 61 MPH.

Finishing behind Potter in the feature were Ray Dobbs, Rodger Otto, Jim Bozeman, Harris, Lawrence, Chuck Uttech and Ron Bergsma. Uttech had been third until the last lap when he spun giving up that spot to Otto.

The first heat of modifieds was won by Tom Anderson of Antioch with Don Krause of Clinton second and Chuck Henne of Lake Geneva third. The second heat saw Dobbs the winner over Potter and Ken Hanson of Trevor. The third heat was won by Don Scoree of West Allis over Harris and Otto. The fourth heat was won by Chuck Uttech with Bergsma wsecond

and Bozeman third. The semi-feature was won by Danny McKay of Elgin after a close battle with a closing-in Anderson. Behind them was Don Kettle, Dan Krueze and Jamerson.

Bill Snodie of Delavan, the late model Speed Center Champion, won his heat race but could only manage second in the feature after being passed by Rich Schuyler of Jefferson. Walt Kline won the other late model heat. Curt Miles of Lake Geneva won the spectator stock heat by narrowly missing several out of control cars in each turn.

A good crowd was on hand in spite of the cold weather and stayed right through to the final checkered flag.

Mother's Day Special At Chicken Shoot

Mothers will reign supreme at the McHenry Sportsmen's annual Mother's Day Chicken Shoot Sunday, May 14th, starting at 11 a.m.

All mothers who put in an appearance will shoot for free, as guests of the club. To make certain they win their share of the meat, trap officers will run their popular Hi-Lo-White Bird Shoots, in which a fat young fryer is won by the mom who breaks the most targets; one chicken goes to the mom who breaks the least clay birds, and one to the mom who gets lucky and bags a white bird. They may choose to shoot it out with the high gun taking all three chickens, or they may go for the Double White Bird Shoot. In this contest the doll with the high score takes one prize, and the lucky gals who break the white birds get a chicken for each.

Club members will make their own guns available to mothers who do not have one. Even ammunition will be supplied for free.

To keep the men shooters happy, the club will run a "sneak preview" of their upcoming THREE for a BUCK Chicken Shoot. The same three 3-chicken contests which mothers will shoot, will also be on the men's program, so good shooters, bad shooters and lucky nimrods will all share equally in the prizes, all for one buck for each contest.

Tender aged JoPat steaks will also be on the prize menu for cannibal-type gourmets who prefer red meat.

a veteran fisherman would be proud to land. He pulled in a 27 inch Northern Pike. Mark was fishing with a bamboo pole and a "skinny" night crawler, to use his own description of his bait. His three-year-old brother, Matt, helped him out by running and telling Mommie that Mark had a big fish.

Mark, the son of Mr. and Mrs. Milton Kosar, Cross Lake, spends a lot of time fishing in the channel near his home. He also gets in some fishing when he visits his grandparents in Minnesota. Last summer he pulled in a good sized black bass with his bamboo pole and a worm for bait.

Protection and Annie Oakley Shoots will round out the day's program. The McHenry Sportsmen's trap range is on the west side of Pistakee Bay and can be reached from the east via Route 134 Big Hollow Road to its western terminus, then a right turn for one half mile. From the west the route is through Johnsburg, across the Fox River to Adams Service station, then a left turn. From McHenry it is Route 120 to Chapel Hill Road, north to Adams Service station and a right turn.

Sunday Night Races Rained Out Again

The Waukegan Speedway lost its third program in six attempts Sunday night as light, but persistent showers interrupted time trials. Time over, with Whitey Harris holding the fastest qualification lap; however the rain wiped the whole evening out of the books. Rain checks will be honored for next Sunday's program.

Next weekend the Speedway will again try to present two nights of racing. Saturday night the May Championship races for the late models will be contested, topped with a 50 lap feature. Sunday night the modifieds will run a full program, including a 30 lap main. Hobby stock racing will be included on both cards.

Jim Cossman won the 30-lap late model feature at the Waukegan Speedway Saturday night even though he wasn't the first driver across the finish line. Dennis Burgan was the first to take the checkered flag and made the traditional victory lap, but an official decision penalized Burgan one lap due to a rule

infracton.

It all started with an opening lap pileup that eliminated Burgan's Valiant and called for a restart of the event. While his car was being towed from the track, Burgan got behind the wheel of Harold Gutche's Ford.

Such a change is allowed; however, the rule book states "When there is a driver change, the car will be required to start or restart in the rear of the event for which it has qualified." Burgan did not announce the change to officials and did not restart at the rear of the event and thus had to be penalized.

Ralph Sinnen lead he first five laps, but Burgan moved outside and took over the top spot. Meanwhile, a hot battle among Ron Kalous, Cossman and Norm Zenko developed for fourth spot. Sinnen bounced off the wall directly into Kalous' path during the ninth lap and forced him back.

Cossman passed second-running Ray Bush in the twelfth lap. Dave Evans moved into third on the next circuit and was awarded second at the finish. Kalous was third and Zenko wound up fourth.

Paul Graddock lead most of the way to win the semi-feature event, but not until he held off the strong challenges of Ray Dixon, who spun in the tenth lap, and Tim Seyl, who was a very close second. Marty Chapman, who missed time trials and started in the rear of the semi and his heat, grabbed third in the semi and earlier passed them all to win his heat race.

Cossman won a thrilling dash as he passed Zenko on the last lap. Then in the third heat, Cossman tried for six laps to pass Evans and the duel brought fans to their feet as Evans outran Cossman to the checkered and Kalous beat Burgan in a photo-finish for third. Burgan set fast time with a near record 17.72 clocking.

Waukegan's first extra lap event of the season will be the May Championship for late models this Saturday night, May 13. There will be no increase in admission price for this full evening of double-point racing which includes a 50 lap feature.

Senate Bill Would Mean Better Care For Retarded

The Illinois Association for the Mentally Retarded is spearheading a grass roots movement on behalf of three Illinois Senate bills which would revolutionize care of institutionalized children and adults.

Members of 40 associations affiliated with the IAMR, including the Lake County Society for Retarded, are preparing to alert their Sena-

tors to the vital importance of the legislative proposals as the way to attack three major problems — overcrowding, understaffing and long waits for placement.

"Illinois now has two of the largest institutions in the world and lags behind most of the other states in staffing. Waiting time for placement can be as long as eight years," said Ralph von

Osinski of Carol Stream, IAMR president.

The bills, which have bipartisan support, call for a \$72,000,000 program of new construction, salary raises and additions to staff. Chief sponsor is Senate Welfare Chairman Harris W. Farwell (R-Naperville).

Senate Bill 950 would appropriate \$54,000,000 for the construction of six modern 400-bed residential facilities in northern Illinois to serve residents of Cook, DuPage, Grundy, Kane, Kendall, Lake, McHenry and Will

counties. This area has one institution which serves 176 children and a list of 1,488 individuals waiting for placement anywhere they can be accommodated, von Osinski said.

SB 951 asks a \$4,300,000 appropriation for salary raises for those employees in the "front-line" of providing nursing, feeding and other vital care services. Present yearly salaries for such employees, said von Osinski, range from \$3,780 for psychiatric aides to \$3,060 for dietary workers and are woefully inadequate to compete with industry.

SB 952 would appropriate \$14,000,000 for the hiring of 1,500 additional "front-line" employees, mostly for Lincoln and Dixon (Ill.) State Schools which the IAMR president, termed seriously understaffed at present.

Von Osinski reported that according to standards of the American Association on Mental Deficiency, Dixon State School should have 2,376 employees in "front-line" capacities to provide minimal care, and that Lincoln State School needs 2,098.

Present budget requests for such employees at the two schools stand at only 803 for Dixon and 807 for Lincoln, the IAMR president added.

"All sections of the state stand to benefit from this fine legislative program," said von Osinski. "Its passage will cut waiting lists everywhere, relieve overcrowding at Lincoln and Dixon by transferring residents to new facilities in their home communities, and result in better care for downstate patients."

Student Teachers Get Training

Sixty-five student teachers from Iowa Wesleyan College have spent the past four weeks teaching in eight eastern Iowa public school systems. The students have another four weeks of teaching remaining in their professional semester for seniors.

IBA Opposes Branch Banking Legislation

The Illinois Bankers Association will continue to oppose the legalization of branch banking in the state, according to a statement released following introduction in the General Assembly of branch banking legislation, backed by two giant Chicago loop banks.

The state's bankers contend that "it's the same old bill that nobody wants except a few big banks which hunger to concentrate even further their great financial power in Illinois." There is no need for branching. There is no demand for it!

The IBA believes that the General Assembly will reject the "pressures of the big banks just as they have in the last four sessions when branching has been proposed. The Association regards branch banking as "monopolistic, since its effect is always to reduce the number of banks and thereby reduce the amount of competition in banking."

A provision in this year's bill, prohibiting branching in cities of 5,000 or less which already have a bank, is dismissed by the IBA as an obvious ploy to neutralize the opposition of some small bankers to branching.

"This kind of tactics won't work because the vast majority of all the banks in the state are opposed to branch banking on the basis of their concern for the public interest, and the public interest rejects any reliance on promises of limitations and containment — which the big bankers apparently feel are necessary."

The limitations included in this year's version constitute an admission by the monopoly-minded bankers behind branching that they have their eyes on the big deposits in big towns. They don't even pretend anymore that they want branching to serve people in small communities — until later in the game."

Approval of a new, modern banking system at the November, 1966, general election is cited by the IBA as evidence that the General Assembly, with public approval, has already established a set of state banking laws that are considered a

model for the entire nation.

"Significant, far-reaching changes in the state banking act have just been made," the Association points out. "These changes are the direct result of recommendations made by the Illinois Bankers Association, following an intensive three year study, which included examination of banking codes in other states, and consultation with civic organizations and leading authorities throughout the United States."

"As a result of that study, the Association agreed, the Legislature concurred and the people confirmed that 1966 changes in the Banking Act represented the most thorough-going effort possible to give Illinois the best state banking system in the nation. It was the consensus that the introduction of branch banking would be a step backward in that effort."

"Our positive efforts in behalf of the new code are consistent with our traditional support for constructive change that contributes to progress and that strengthens—not reduces—the competitive community-orientation of banks."

"It is competition and the commitment of banks to the community where they are located that has enabled the Illinois banking system to make important contributions to the state's industrial, commercial and economic leadership."

"This leadership, accord-

GUN BILL INTRODUCED

A bill, supported by Gov. Otto Kerner, requiring the licensing of all owners of pistols and the maintenance of a pistol registry was introduced in the Illinois Senate.

Sen. James H. Donnewald (D-Breese) is chief sponsor of the bill.

The bill requires that the owner of a pistol obtain a license from local police authorities. Police would

ing to the IBA, "is another indication that there is no need for branch banking in the state."

"The IBA is regretful that costly, wasteful Legislative TIME spread over 10 years, has been taken up by an issue which is promoted on the basis of the selfish ambitions of a few big banks and has no relationship to the needs or desires of the general public."

"Four consecutive sessions of the Legislature have considered the arguments for branching and have found them fallacious."

"The same old arguments are now re-appearing. Once again, we will have to prove that increased bank deposits and increased economic activity do not result from branch banking; that branching results in more branch offices but few banks, less competition and greater concentration of financial power. Once more, we will show how branching results in less personal service and more red tape, less innovation and more conformity in services."

THE ANTIOCH NEWS 10 THURSDAY, MAY 11, 1967

be required to issue a license within 30 days unless the application is defective or states an unlawful purpose for the possession of a pistol.

Patterned after a similar bill proposed in 1965 by the Judiciary Committee of the House of Representatives, the bill incorporates several changes recommended by the Department of Public Safety.

What is A Mother?

To her family, she's special.
She's understanding,
a banquet chef, a short order cook,
a fountain of love, a chauffeur,
warmth and security.
She's clean socks, starched dresses,
a mender of hurts.
She's scrubbed ears,
a tender nurse, a maid, a queen.

She deserves a day of honor and tribute.
She deserves the love of those she loves.

Yes, she's very, very special.

This Sunday, you'll tell your mother
how much you care.
We'd like to tell all mothers, "We Care, too!"
